## ABOUT US:

Founded by J.P. Sheets, a former U.S. Marine and a Certified Protection Specialist (C.P.S), Praetorian Services Group has become known as one of the top, premier private security firms in the State of Colorado. With a need for higher class, better quality, custom security and training in Colorado, Mr. Sheets decided to be solution. Praetorian Services Group only hires highly trained and highly qualified Agents, and still requires that ongoing training be apart of the normal operating procedure.

Praetorian Services Group, LLC has been in operation since 2001, though not called Praetorian Services Group until 2008. Mr. Sheets owned a family of companies since 2003 that worked in various fields all now performed by one company. These companies were: Elite Protection Services, Investigative Security Service, A.P. Sheets Limited and the Colorado Institute of Bail Enforcement. J.P Sheets decided that all these companies he owned were to busy and nearly impossible to run effectively as separate entities, so in 2008 he merged them all to make Praetorian Services Group, LLC.

Praetorian Services Group has 2 divisions, the services division and the training division. The Services Division is the side of the company that actually offers and performs all security, protection, consulting, investigation and recovery services to clients and businesses. The Training Division is the side that offers training in many security, protection, investigation and recovery related skill sets. The use of taser guns, pepper spray, firearms, arrest control techniques, building searches, skip-tracing, fugitive recovery training and more are part of the normal curriculum in the Training Division.
